Savings enquiries and selected capital instruments

A factual presentation of planning preferences and verified Deutsche Bank AG Additional Tier 1 securities. September 2026.

Planning currencies	Indicative amount	Review preference
GBP and EUR	**£/€10,000–200,000**	**6 months–5 years**

What this guide covers

The website lets a prospective client record a preferred currency, indicative amount and review period. These selections are enquiry details only. They are not applications, quotations, product confirmations or promises of acceptance.

Cash ISA interest

Register interest in eligible tax-free cash savings. ISA rules, annual allowances, provider availability and personal eligibility must be confirmed before application.

Fixed-rate saver interest

Record a preferred currency, amount and period. Any rate, access restriction, maturity date and protection status would be confirmed in formal product terms.

Important distinction

No Cash ISA or fixed-rate saver rate is advertised in this presentation. The savings options are enquiry preferences only. The AT1 securities on the following pages are investments, not savings accounts or deposits.

Selected Deutsche Bank AG AT1 securities

All listed securities are perpetual fixed-to-reset Additional Tier 1 instruments. Coupon means the contractual initial rate shown by the issuer, not the current market yield or expected return.

Coupon	Ccy	ISIN	Issue date	Original issue	Enquiry review
10.00%	EUR	DE000A30VT97	14 Nov 2022	€1.25bn	6 months
8.125%	EUR	DE000A383JS3	10 Jun 2024	€1.5bn	6 months
8.13%	USD	XS1071551474	27 May 2014	$1.25bn	Selected preference
7.375%	EUR	DE000A383S52	21 Nov 2024	€1.5bn	Selected preference
7.125%	EUR	DE000A4DE982	28 Mar 2025	€1.5bn	Selected preference
6.75%	EUR	DE000DL19WG7	4 Apr 2022	€750m	Selected preference
4.625%	EUR	DE000DL19VZ9	12 May 2021	€1.25bn	Selected preference
4.50%	EUR	DE000DL19V55	23 Nov 2021	€1.25bn	Selected preference

A review preference is not a bond term

The two 6-month entries above mean only that a client may ask for the holding to be reviewed after six months. They do not create a six-month maturity, exit right or redemption obligation. Every listed security remains perpetual, has no fixed repayment date, and may be redeemed only at the issuer's discretion and subject to regulatory approval.

Risk and protection

Read this before considering any instrument

Perpetual structure

There is no fixed repayment date. The issuer may choose not to redeem the security.

Coupon cancellation

Interest payments may be cancelled under the terms and may be non-cumulative.

Loss absorption

Principal may be written down or converted when specified capital triggers occur.

Market and currency risk

Prices and exchange rates can move. Selling may return less than the amount invested.

Not deposit protected

AT1 bonds are not deposits and are not protected by the FSCS deposit protection scheme.

Savings protection

Eligible deposits may be protected under the applicable deposit guarantee arrangements and limits stated in the formal account terms. Eligibility depends on the depositor, institution, banking licence and product. This must be confirmed before opening an account.

> Capital is at risk. These complex securities may be intended only for professional or otherwise eligible investors. You may lose some or all of your investment. This guide is for information only and is not investment advice, an offer or a recommendation.
